2023

ASME Boiler and
Pressure Vessel Code
An International Code

**Fiber-Reinforced Plastic
Pressure Vessels**

Markings such as “ASME,” “ASME Standard,” or any other marking including “ASME,” ASME logos, or the ASME Single Certification Mark shall not be used on any item that is not constructed in accordance with all of the applicable requirements of the Code or Standard. Use of the ASME Single Certification Mark requires formal ASME certification; if no certification program is available, such ASME markings may not be used. (For Certification and Accreditation Programs, see <https://www.asme.org/certification-accreditation>.)

Items produced by parties not formally possessing an ASME Certificate may not be described, either explicitly or implicitly, as ASME certified or approved in any code forms or other document.

AN INTERNATIONAL CODE

2023 ASME Boiler & Pressure Vessel Code

2023 Edition

July 1, 2023

X FIBER-REINFORCED PLASTIC PRESSURE VESSELS

ASME Boiler and Pressure Vessel Committee
on Fiber-Reinforced Plastic Pressure Vessels

The American Society of
Mechanical Engineers

Two Park Avenue • New York, NY • 10016 USA

Date of Issuance: July 1, 2023

This international code or standard was developed under procedures accredited as meeting the criteria for American National Standards and it is an American National Standard. The standards committee that approved the code or standard was balanced to ensure that individuals from competent and concerned interests had an opportunity to participate. The proposed code or standard was made available for public review and comment, which provided an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “certify,” “rate,” or “endorse” any item, construction, proprietary device, or activity. ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor does ASME assume any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representatives or persons affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

The endnotes and preamble in this document (if any) are part of this American National Standard.

ASME Collective Membership Mark

ASME Single Certification Mark

“ASME” and the above ASME symbols are registered trademarks of The American Society of Mechanical Engineers.

- XII Rules for Construction and Continued Service of Transport Tanks
- XIII Rules for Overpressure Protection

FOREWORD*

In 1911, The American Society of Mechanical Engineers established the Boiler and Pressure Vessel Committee to formulate standard rules for the construction of steam boilers and other pressure vessels. In 2009, the Boiler and Pressure Vessel Committee was superseded by the following committees:

- (a) Committee on Power Boilers (I)
- (b) Committee on Materials (II)
- (c) Committee on Construction of Nuclear Facility Components (III)
- (d) Committee on Heating Boilers (IV)
- (e) Committee on Nondestructive Examination (V)
- (f) Committee on Pressure Vessels (VIII)
- (g) Committee on Welding, Brazing, and Fusing (IX)
- (h) Committee on Fiber-Reinforced Plastic Pressure Vessels (X)
- (i) Committee on Nuclear Inservice Inspection (XI)
- (j) Committee on Transport Tanks (XII)
- (k) Committee on Overpressure Protection (XIII)
- (l) Technical Oversight Management Committee (TOMC)

Where reference is made to “the Committee” in this Foreword, each of these committees is included individually and collectively.

The Committee’s function is to establish rules of safety relating to pressure integrity, which govern the construction** of boilers, pressure vessels, transport tanks, and nuclear components, and the inservice inspection of nuclear components and transport tanks. The Committee also interprets these rules when questions arise regarding their intent. The technical consistency of the Sections of the Code and coordination of standards development activities of the Committees is supported and guided by the Technical Oversight Management Committee. This Code does not address other safety issues relating to the construction of boilers, pressure vessels, transport tanks, or nuclear components, or the inservice inspection of nuclear components or transport tanks. Users of the Code should refer to the pertinent codes, standards, laws, regulations, or other relevant documents for safety issues other than those relating to pressure integrity. Except for Sections XI and XII, and with a few other exceptions, the rules do not, of practical necessity, reflect the likelihood and consequences of deterioration in service related to specific service fluids or external operating environments. In formulating the rules, the Committee considers the needs of users, manufacturers, and inspectors of pressure vessels. The objective of the rules is to afford reasonably certain protection of life and property, and to provide a margin for deterioration in service to give a reasonably long, safe period of usefulness. Advancements in design and materials and evidence of experience have been recognized.

This Code contains mandatory requirements, specific prohibitions, and nonmandatory guidance for construction activities and inservice inspection and testing activities. The Code does not address all aspects of these activities and those aspects that are not specifically addressed should not be considered prohibited. The Code is not a handbook and cannot replace education, experience, and the use of engineering judgment. The phrase *engineering judgment* refers to technical judgments made by knowledgeable engineers experienced in the application of the Code. Engineering judgments must be consistent with Code philosophy, and such judgments must never be used to overrule mandatory requirements or specific prohibitions of the Code.

The Committee recognizes that tools and techniques used for design and analysis change as technology progresses and expects engineers to use good judgment in the application of these tools. The designer is responsible for complying with Code rules and demonstrating compliance with Code equations when such equations are mandatory. The Code neither requires nor prohibits the use of computers for the design or analysis of components constructed to the requirements of the Code. However, designers and engineers using computer programs for design or analysis are cautioned that they are responsible for all technical assumptions inherent in the programs they use and the application of these programs to their design.

* The information contained in this Foreword is not part of this American National Standard (ANS) and has not been processed in accordance with ANSI’s requirements for an ANS. Therefore, this Foreword may contain material that has not been subjected to public review or a consensus process. In addition, it does not contain requirements necessary for conformance to the Code.

** *Construction*, as used in this Foreword, is an all-inclusive term comprising materials, design, fabrication, examination, inspection, testing, certification, and overpressure protection.

The rules established by the Committee are not to be interpreted as approving, recommending, or endorsing any proprietary or specific design, or as limiting in any way the manufacturer's freedom to choose any method of design or any form of construction that conforms to the Code rules.

The Committee meets regularly to consider revisions of the rules, new rules as dictated by technological development, Code Cases, and requests for interpretations. Only the Committee has the authority to provide official interpretations of this Code. Requests for revisions, new rules, Code Cases, or interpretations shall be addressed to the Secretary in writing and shall give full particulars in order to receive consideration and action (see Submittal of Technical Inquiries to the Boiler and Pressure Vessel Standards Committees). Proposed revisions to the Code resulting from inquiries will be presented to the Committee for appropriate action. The action of the Committee becomes effective only after confirmation by ballot of the Committee and approval by ASME. Proposed revisions to the Code approved by the Committee are submitted to the American National Standards Institute (ANSI) and published at <http://go.asme.org/BPVCPublicReview> to invite comments from all interested persons. After public review and final approval by ASME, revisions are published at regular intervals in Editions of the Code.

The Committee does not rule on whether a component shall or shall not be constructed to the provisions of the Code. The scope of each Section has been established to identify the components and parameters considered by the Committee in formulating the Code rules.

Questions or issues regarding compliance of a specific component with the Code rules are to be directed to the ASME Certificate Holder (Manufacturer). Inquiries concerning the interpretation of the Code are to be directed to the Committee. ASME is to be notified should questions arise concerning improper use of the ASME Single Certification Mark.

When required by context in this Section, the singular shall be interpreted as the plural, and vice versa, and the feminine, masculine, or neuter gender shall be treated as such other gender as appropriate.

The words "shall," "should," and "may" are used in this Standard as follows:

- *Shall* is used to denote a requirement.
- *Should* is used to denote a recommendation.
- *May* is used to denote permission, neither a requirement nor a recommendation.

STATEMENT OF POLICY ON THE USE OF THE ASME SINGLE CERTIFICATION MARK AND CODE AUTHORIZATION IN ADVERTISING

ASME has established procedures to authorize qualified organizations to perform various activities in accordance with the requirements of the ASME Boiler and Pressure Vessel Code. It is the aim of the Society to provide recognition of organizations so authorized. An organization holding authorization to perform various activities in accordance with the requirements of the Code may state this capability in its advertising literature.

Organizations that are authorized to use the ASME Single Certification Mark for marking items or constructions that have been constructed and inspected in compliance with the ASME Boiler and Pressure Vessel Code are issued Certificates of Authorization. It is the aim of the Society to maintain the standing of the ASME Single Certification Mark for the benefit of the users, the enforcement jurisdictions, and the holders of the ASME Single Certification Mark who comply with all requirements.

Based on these objectives, the following policy has been established on the usage in advertising of facsimiles of the ASME Single Certification Mark, Certificates of Authorization, and reference to Code construction. The American Society of Mechanical Engineers does not “approve,” “certify,” “rate,” or “endorse” any item, construction, or activity and there shall be no statements or implications that might so indicate. An organization holding the ASME Single Certification Mark and/or a Certificate of Authorization may state in advertising literature that items, constructions, or activities “are built (produced or performed) or activities conducted in accordance with the requirements of the ASME Boiler and Pressure Vessel Code,” or “meet the requirements of the ASME Boiler and Pressure Vessel Code.” An ASME corporate logo shall not be used by any organization other than ASME.

The ASME Single Certification Mark shall be used only for stamping and nameplates as specifically provided in the Code. However, facsimiles may be used for the purpose of fostering the use of such construction. Such usage may be by an association or a society, or by a holder of the ASME Single Certification Mark who may also use the facsimile in advertising to show that clearly specified items will carry the ASME Single Certification Mark.

STATEMENT OF POLICY ON THE USE OF ASME MARKING TO IDENTIFY MANUFACTURED ITEMS

The ASME Boiler and Pressure Vessel Code provides rules for the construction of boilers, pressure vessels, and nuclear components. This includes requirements for materials, design, fabrication, examination, inspection, and stamping. Items constructed in accordance with all of the applicable rules of the Code are identified with the ASME Single Certification Mark described in the governing Section of the Code.

Markings such as “ASME,” “ASME Standard,” or any other marking including “ASME” or the ASME Single Certification Mark shall not be used on any item that is not constructed in accordance with all of the applicable requirements of the Code.

Items shall not be described on ASME Data Report Forms nor on similar forms referring to ASME that tend to imply that all Code requirements have been met when, in fact, they have not been. Data Report Forms covering items not fully complying with ASME requirements should not refer to ASME or they should clearly identify all exceptions to the ASME requirements.

Working Group on General Requirements (BPV III-4)

D. J. Roszman, *Chair*
 M. Ellis

P. Mokaria
 W. K. Sowder, Jr.

Working Group on In-Vessel Components (BPV III-4)

M. Bashir, *Chair*
 Y. Carin
 T. P. Davis

M. Kalsey
 S. T. Madabusi

Working Group on Magnets (BPV III-4)

W. K. Sowder, Jr., *Chair*

D. S. Bartran

Working Group on Materials (BPV III-4)

M. Porton, *Chair*
 T. P. Davis

P. Mummery

Working Group on Vacuum Vessels (BPV III-4)

I. Kimihiro, *Chair*
 L. C. Cadwallader
 B. R. Doshi

D. Johnson
 Q. Shijun
 Y. Song

Subgroup on General Requirements (BPV III)

| | |
|-------------------------------|---|
| J. V. Gardiner, <i>Chair</i> | E. C. Renaud |
| N. DeSantis, <i>Secretary</i> | T. N. Rezk |
| V. Apostolescu | J. Rogers |
| A. Appleton | R. Spuhl |
| S. Bell | D. M. Vickery |
| J. R. Berry | J. DeKleine, <i>Contributing Member</i> |
| G. Brouette | H. Michael, <i>Contributing Member</i> |
| G. C. Deleanu | D. J. Roszman, <i>Contributing Member</i> |
| J. W. Highlands | C. T. Smith, <i>Contributing Member</i> |
| E. V. Imbro | W. K. Sowder, Jr., <i>Contributing Member</i> |
| K. A. Kavanagh | G. E. Szabatura, <i>Contributing Member</i> |
| Y.-S. Kim | |
| B. McGlone | |

Subgroup on High Temperature Reactors (BPV III)

| | |
|---------------------------|---|
| T.-L. Sham, <i>Chair</i> | A. Mann |
| Y. Wang, <i>Secretary</i> | M. C. Messner |
| M. Ando | X. Wei |
| N. Broom | W. Windes |
| F. W. Brust | R. Wright |
| P. Carter | G. L. Zeng |
| M. E. Cohen | D. S. Griffin, <i>Contributing Member</i> |
| W. J. Geringer | X. Li, <i>Contributing Member</i> |
| B. F. Hantz | W. O'Donnell, Sr., <i>Contributing Member</i> |
| M. H. Jawad | L. Shi, <i>Contributing Member</i> |
| W. T. Jessup | R. W. Swindeman, <i>Contributing Member</i> |
| R. I. Jetter | |
| K. Kimura | |
| G. H. Koo | |

Special Working Group on General Requirements Consolidation (SG-GR) (BPV III)

| | |
|------------------------------|---|
| J. V. Gardiner, <i>Chair</i> | E. C. Renaud |
| J. Grimm, <i>Vice Chair</i> | J. L. Williams |
| G. C. Deleanu | C. T. Smith, <i>Contributing Member</i> |
| A. C. Eberhardt | |

Special Working Group on High Temperature Reactor Stakeholders (SG-HTR) (BPV III)

| | |
|---------------------------|--|
| M. E. Cohen, <i>Chair</i> | G. H. Koo |
| M. C. Albert | N. J. McTiernan |
| M. Arcaro | T. Nguyen |
| R. W. Barnes | K. J. Noel |
| N. Broom | T.-L. Sham |
| R. Christensen | B. Song |
| V. Chugh | X. Wei |
| W. Corwin | G. L. Zeng |
| G. C. Deleanu | T. Asayama, <i>Contributing Member</i> |
| R. A. Fleming | X. Li, <i>Contributing Member</i> |
| K. Harris | L. Shi, <i>Contributing Member</i> |
| R. I. Jetter | G. Wu, <i>Contributing Member</i> |
| Y. W. Kim | |

Working Group on General Requirements (SG-GR) (BPV III)

| | |
|----------------------------|---|
| B. McGlone, <i>Chair</i> | Y. K. Law |
| J. Grimm, <i>Secretary</i> | D. T. Meisch |
| V. Apostolescu | E. C. Renaud |
| A. Appleton | T. N. Rezk |
| S. Bell | J. Rogers |
| J. R. Berry | B. S. Sandhu |
| G. Brouette | R. Spuhl |
| P. J. Coco | J. F. Strunk |
| N. DeSantis | D. M. Vickery |
| Y. Diaz-Castillo | J. L. Williams |
| O. Elkadim | J. DeKleine, <i>Contributing Member</i> |
| J. Harris | S. F. Harrison, Jr., <i>Contributing Member</i> |
| J. W. Highlands | D. J. Roszman, <i>Contributing Member</i> |
| E. V. Imbro | G. E. Szabatura, <i>Contributing Member</i> |
| K. A. Kavanagh | |
| Y.-S. Kim | |

Task Group on Division 5 AM Components (SG-HTR) (BPV III)

| | |
|---------------------------|------------------|
| R. Wright, <i>Chair</i> | M. McMurtrey |
| R. Bass, <i>Secretary</i> | M. C. Messner |
| M. C. Albert | T. Patterson |
| R. W. Barnes | E. C. Renaud |
| F. W. Brust | D. Rudland |
| Z. Feng | T.-L. Sham |
| S. Lawler | I. J. Van Rooyen |
| X. Lou | X. Wei |

Working Group on General Requirements for Graphite and Ceramic Composite Core Components and Assemblies (SG-GR) (BPV III)

| | |
|------------------------------|--------------------------|
| W. J. Geringer, <i>Chair</i> | M. N. Mitchell |
| A. Appleton | J. Potgieter |
| J. R. Berry | E. C. Renaud |
| C. Cruz | R. Spuhl |
| Y. Diaz-Castillo | W. Windes |
| J. Lang | B. Lin, <i>Alternate</i> |

Working Group on Allowable Stress Criteria (SG-HTR) (BPV III)

| | |
|--------------------------------|---|
| R. Wright, <i>Chair</i> | W. Ren |
| M. McMurtrey, <i>Secretary</i> | T.-L. Sham |
| R. Bass | Y. Wang |
| K. Kimura | X. Wei |
| D. Maitra | M. Yoo, <i>Alternate</i> |
| R. J. McReynolds | R. W. Swindeman, <i>Contributing Member</i> |
| M. C. Messner | |
| J. C. Poehler | |

Working Group on Analysis Methods (SG-HTR) (BPV III)

| | |
|------------------------------|--|
| M. C. Messner, <i>Chair</i> | T.-L. Sham |
| H. Mahajan, <i>Secretary</i> | X. Wei |
| R. W. Barnes | S. X. Xu |
| J. A. Blanco | J. Young |
| P. Carter | M. R. Breach, <i>Contributing Member</i> |
| W. T. Jessup | T. Hassan, <i>Contributing Member</i> |
| R. I. Jetter | S. Krishnamurthy, <i>Contributing Member</i> |
| G. H. Koo | M. J. Swindeman, <i>Contributing Member</i> |
| H. Qian | |
| T. Riordan | |

Working Group on Creep-Fatigue and Negligible Creep (SG-HTR) (BPV III)

| | |
|-----------------------|--------------------------|
| Y. Wang, <i>Chair</i> | M. C. Messner |
| M. Ando | T. Nguyen |
| P. Carter | J. C. Poehler |
| M. E. Cohen | H. Qian |
| J. I. Duo | R. Rajasekaran |
| R. I. Jetter | T.-L. Sham |
| G. H. Koo | X. Wei |
| H. Mahajan | J. Young |
| M. McMurtrey | M. Yoo, <i>Alternate</i> |

Working Group on High Temperature Flaw Evaluation (SG-HTR) (BPV III)

| | |
|--------------------------------|--------------------------|
| C. J. Sallaberry, <i>Chair</i> | H. Qian |
| F. W. Brust | D. A. Scarth |
| P. Carter | D. J. Shim |
| S. Kalyanam | A. Udyawar |
| B.-L. Lyow | X. Wei |
| M. C. Messner | S. X. Xu |
| J. C. Poehler | M. Yoo, <i>Alternate</i> |

Working Group on Nonmetallic Design and Materials (SG-HTR) (BPV III)

| | |
|-----------------------------------|--|
| W. Windes, <i>Chair</i> | M. N. Mitchell |
| W. J. Geringer, <i>Vice Chair</i> | J. Parks |
| J. Potgieter, <i>Secretary</i> | T.-L. Sham |
| G. Beirnaert | A. Tzelepi |
| C. Chen | G. L. Zeng |
| A. N. Chereskin | M. Yoo, <i>Alternate</i> |
| V. Chugh | A. Appleton, <i>Contributing Member</i> |
| C. Contescu | R. W. Barnes, <i>Contributing Member</i> |
| N. Gallego | A. A. Campbell, <i>Contributing Member</i> |
| S. T. Gonczy | S.-H. Chi, <i>Contributing Member</i> |
| K. Harris | Y. Katoh, <i>Contributing Member</i> |
| M. G. Jenkins | A. Mack, <i>Contributing Member</i> |
| J. Lang | J. B. Ossmann, <i>Contributing Member</i> |
| M. P. Metcalfe | |

Subgroup on Materials, Fabrication, and Examination (BPV III)

| | |
|-----------------------------|--|
| J. Grimm, <i>Chair</i> | M. Kris |
| S. Hunter, <i>Secretary</i> | D. W. Mann |
| W. H. Bortor | T. Melfi |
| M. Brijlani | I.-K. Nam |
| G. R. Cannell | J. B. Ossmann |
| A. Cardillo | J. E. O'Sullivan |
| S. Cho | M. C. Scott |
| P. J. Coco | W. J. Sperko |
| R. H. Davis | J. R. Stinson |
| D. B. Denis | J. F. Strunk |
| B. D. Frew | W. Windes |
| D. W. Gandy | R. Wright |
| S. E. Gingrich | S. Yee |
| M. Golliet | H. Michael, <i>Delegate</i> |
| L. S. Harbison | A. L. Hiser, Jr., <i>Alternate</i> |
| R. M. Jessee | R. W. Barnes, <i>Contributing Member</i> |
| C. C. Kim | |

Task Group on Advanced Manufacturing (BPV III)

| | |
|-------------------------------|--------------------------------------|
| D. W. Mann, <i>Chair</i> | T. Melfi |
| D. W. Gandy, <i>Secretary</i> | E. C. Renaud |
| R. Bass | W. J. Sperko |
| D. Chowdhury | J. F. Strunk |
| P. J. Coco | J. Sulley |
| B. D. Frew | S. Tate |
| J. Grimm | S. Wolbert |
| A. L. Hiser, Jr. | H. Xu |
| J. Lambin | D. W. Pratt, <i>Alternate</i> |
| T. Lippucci | S. Malik, <i>Contributing Member</i> |
| K. Matsunaga | |

Joint Working Group on HDPE (SG-MFE) (BPV III)

| | |
|---------------------------------|--------------------------------------|
| M. Brandes, <i>Chair</i> | K. Manoly |
| T. M. Musto, <i>Chair</i> | D. P. Munson |
| J. B. Ossmann, <i>Secretary</i> | J. O'Sullivan |
| G. Brouette | V. Rohatgi |
| M. C. Buckley | F. Schaaf, Jr. |
| S. Choi | S. Schuessler |
| M. Golliet | R. Stakenborghs |
| J. Hebeisen | M. Troughton |
| J. Johnston, Jr. | P. Vibien |
| P. Krishnaswamy | J. Wright |
| M. Kuntz | T. Adams, <i>Contributing Member</i> |
| B. Lin | |

COMMITTEE ON HEATING BOILERS (BPV IV)

| | |
|--|--|
| M. Wadkinson, <i>Chair</i> | C. Dinic |
| J. L. Kleiss, <i>Vice Chair</i> | J. M. Downs |
| C. R. Ramcharran, <i>Staff Secretary</i> | J. A. Hall |
| B. Ahee | M. Mengon |
| L. Badziagowski | D. Nelson |
| T. L. Bedeaux | H. Michael, <i>Delegate</i> |
| B. Calderon | D. Picart, <i>Delegate</i> |
| J. P. Chicoine | P. A. Molvie, <i>Contributing Member</i> |

Executive Committee (BPV IV)

| | |
|--|----------------|
| M. Wadkinson, <i>Chair</i> | J. P. Chicoine |
| C. R. Ramcharran, <i>Staff Secretary</i> | J. A. Hall |
| L. Badziagowski | J. L. Kleiss |
| T. L. Bedeaux | |
